

# LASER PISTOL

## NOTES

1. THE LASER PISTOL IS THE STANDARD SIDEARM USED BY ALL OF THE COLONIAL MILITARY FORCES, IT IS REQUIRED THAT IT BE CARRIED BY WARRIORS AT ALL TIMES.
2. THE LASER PISTOL COMBINES FIREPOWER AND ACCURACY INTO THE SMALLEST WEAPON POSSIBLE. LASER PISTOLS HAVE TWO SETTINGS STUN AND KILL. STUN IS INEFFECTIVE AGAINST CYLONS AND IS ONLY INTENDED TO BE USED AGAINST LIFE FORMS.
3. THE LASER PISTOL REQUIRES OCCASIONAL RECHARGING AFTER EXTENDED USE OR CONTINUOUS FIRING.
4. THE ACTIVATION LIGHTS INDICATE THAT THE WEAPON IS FULLY FUNCTIONAL AND THAT ALL POWER TERMINALS ARE OPEN. THE LIGHTS ALSO WILL INDICATE ANY POWER LOSS BY DIMMING. WHEN THE LIGHTS GO OUT THE UNIT IS FULLY DISCHARGED.
5. THE SIGHT IS DESIGNED FOR USE IN LONG RANGE PIN-POINT FIRING AND WORKS AS A MINI-TARGETING SENSOR.

### PARTICULARS

- A...EXHAUST VENTS
- B...FLASH SHIELD
- C...TRIGGER
- D...ACTIVATION LIGHTS
