

FLIGHT DATA BOARD TYPE I

FLIGHT DATA BOARD TYPE II

FLIGHT DATA BOARD

FLIGHT DATA BOARDS ARE USED DURING FLIGHT AS A BACKUP COMPUTER SYSTEM. DATA BOARDS CAN DO ANYTHING THAT THE ON BOARD COMPUTER SYSTEM CAN DO, AND ARE USED PRIMARILY AS A BACKUP, UNLESS THERE IS A FAILURE IN THE ON BOARD SYSTEM, OR IF THE ON BOARD SYSTEM HAS BEEN DAMAGED. THEIR ONLY DRAWBACK IS THAT THEY ARE NOT TIED INTO THE GALACTICA'S COMPUTER SYSTEM.
