Excerpt from original pilot: "No Place To Hide"

## COMMENTATOR

The "space family," selected from more than two million volunteers for its unique balance of scientific

achievement, emotional stability, and pioneer resourcefulness, will spend the ninety-eight years of their voyage frozen into a state of suspended animation, proportionate to the way time will be "frozen" inside the spaceship as it approaches the, until now, almost unimaginable speed of light...

Heading the expedition will be Doctor John Robinson, Professor of Astrophysics at the University of Taos.

... His wife, Doctor Maureen Robinson, the distinguished biochemist of the New Mexico Institute for Space Medicine...
