

ALIEN SPACECRAFT

The Jupiter 2 approaches this miniature which was used in two episodes. It was originally used as a refueling station in "Wild Adventure," (a second season episode) and as an Air Force weather station in space in "The Haunted Lighthouse" (a third season episode).

Even though Captain Tucker ("The Sky Pirate") from the first season was born on Earth, his spaceship is of alien origin. It is shown here on the Robinson's planet just shortly after landing. Portions of its interior were later used for the Flying Sub in Irwin Allen's *Voyage To The Bottom of the Sea* tv series.

An alien spaceship which was used in a number of *Lost In Space* episodes including "The Sky Pirate." It even saw action in an episode of *The Time Tunnel*.
