13. Seed of Destruction

Screenplay: JOHN GOLDSMITH
Director: KEVIN CONNOR

Koenig investigates a glittering, jewel-like asteroid that seems to be drawing Alpha's power. Inside he sees a kaleidoscope of flashing lights and hundreds of mirrors reflecting his image. Suddenly, one of the reflections steps out of its mirror and overpowers the Commander. Exchanging clothes, the imposter returns to Alpha where he claims that the only way to stop the power loss caused by the asteroid is to destroy the mass with an energy beam. No one on the base realizes that the true purpose of the beam is to release the power of a buried seed – the heart of Kalthon. The "seed" is really the entire Kalthon world compressed to minute size. When Maya and Tony realize what the mirror image is trying to do, they go to the asteroid to stop the alien from releasing a power that could destroy the entire universe.

14. Beta Cloud

Screenplay: CHARLES WOODGROVE
Director: ROBERT LYNN

A strange cloud incapacitates most of Alpha. Commanding a skeleton crew, Tony sends Eagle 6 to investigate the cloud. The spacecraft returns without its crew. It is manned by a huge creature who begins to destroy the base. A voice from the cloud announces over the radio that the creature has been sent to take Alpha's life support core. All attempts to stop the monster fail until Maya realizes the creature is not alive! It is a robot. Somehow she must find a way to enter the robot's body and "pull the plug" before it kills Tony and takes the core.

Creature: DAVE PROWSE
